Heavy Vehicle Transport Safety and Fatigue Risk Management Workshop

Wednesday 20 May, 2009

8:30 am - 12.30 pm

The George Institute for International Health
Level 7, 341 George Street, Sydney
(Opposite Martin Place, enter from Wynyard Street)

*The ACRS NSW (Sydney) Chapter
acknowledges the support
of the MAA in hosting our seminar series.*

Heavy Vehicle Transport Safety and Fatigue Risk Management Workshop

This workshop is designed to convey the latest research and policy developments as well as the experience of transport operators in safety and fatigue risk management.

Expert presentations will provide a range of issues to explore in a workshop setting, enabling participants to learn through discussion.

The early sessions will cover the research and recent government policy advancements, while the later sessions will go into some practical management issues.

Each segment will allow for panel discussion and audience involvement in exploring and debating the key issues.

This Workshop is supported by:

*The George Institute for International Health,
Sydney University*

and

*The Injury Risk Management Research Centre,
University of NSW*

Program

**Safety Management Systems for Heavy Vehicle
Transport**
Ms Lori Mooren, Senior Research Fellow, IRMRC

**Regulatory Management - from an Operators
Perspective**
Mr Shane Falkiner, Compliance Manager Asia Pacific,
Linfox

Panel Discussion
Dr Senserrick, The George Institute for International
Health

12:00 Wrap-up, Key themes and Lessons
Prof Grzebieta, IRMC

12:15 LIGHT LUNCH AND NETWORKING

Background

Objectives

The workshop will review driver fatigue risks in the heavy vehicle industry, including existing knowledge, current research, government policy directions, safety management methods in theory and practice as well as related industry perspectives on the problem.

Audience:

The primary audience targeted for this workshop is the ACRS members and potential members who are researchers or practitioners with an interest in heavy vehicle driver fatigue. Industry practitioners are also invited to attend.

The Program:

This workshop will feature presentations from government, industry and research institutes as well as discussion and panel sessions for deeper exploration of the policy and safety management issues. It will have a practical focus on what to do about what we know regarding transport safety issues for heavy vehicles.

Sponsors:

The workshop is one of the series of ACRS Sydney Chapter seminars, sponsored by the Motor Accidents Authority.

This workshop will be co-hosted by The George Institute for International Health which is affiliated with The University of Sydney and the Injury Risk Management Research Centre, The University of New South Wales.
